From: Christopher B. Jenkins,

Re: Stryker Maintenance Non-Competitive Procurement

Policy:

Non-competitive negotiations may be used as a procurement method for purchases of products or services when available from only one source (Sole Source), or when it is determined by the EMSA Chief Executive Officer that there is only one practicable and reasonable source wherein competitive bidding is not feasible or not advantageous to EMSA (Non-competitive).

A Non-Competitive purchase exists when it is advantageous to EMSA to declare a purchase non-competitive because it will result in verifiable financial savings to the organization, is a trial or pilot program, or utilizing a competitive process will be detrimental to timely securing of the goods or services. More than one potential supplier may exist for a good or service. The advantages will be documented when declaring the purchase non-competitive. Taking this into consideration, only one reasonable and practicable source exists to supply a good or service. Such advantages may include, but not be limited to: professional and legal services based on uniqueness, vendor qualifications, or timeliness of purchase. EMSA will ensure the item is as follows:

1. The product or service is a desired experimental trial/pilot or testing nature;
2. Additional products or services are needed to complete an ongoing task;
3. The needed product or service may be available from more than one source however, due to documented advantages, such as uniqueness, vendor qualifications, timeliness, etc., a non-competitive purchase may be initiated when it is determined by the EMSA Chief Executive Officer that there is only one practicable and reasonable source wherein competitive bidding is not feasible or not advantageous to EMSA; or
4. Funds have become readily available through a grant process and must be spent in a time frame that does not permit competitive bidding.

Overview:

EMSA has over the years through competitive bidding secured several Stryker Emergency Care products including cardiac monitors, stretchers, and stretcher loading systems. These patient care products require regular maintenance and testing to ensure their safety and performance in emergency situations. Stryker is the original equipment manufacturer and sole source distributor of parts for all Stryker Emergency Care products and are the only parts approved for and tested for use on Stryker products. In some cases (cardiac monitors primarily) the parts and maintenance must be performed by the manufacturer in order to maintain FDA compliance. Stryker employs its own field service team to service its products having exclusive use of certain proprietary tools which are required for repair of each of the products EMSA owns.

Request:

Stryker has consistently provided quality maintenance and warranty work for their products over the life span of the products. I am requesting that you and the EMSA Board of Trustees award a Non-Competitive Procurement to Stryker for preventative maintenance services on Stryker products.

ProCare® Services

3800 E. Centre Ave.
Portage MI 49002 USA
1 800 STRYKER
stryker.com

To:	Whom it may concern
Subject:	Emergency Care parts and service
Date:	October 2021

Stryker's Medical division certifies that it is the original equipment manufacturer (OEM) or sole source distributor of parts for Emergency Care products. All parts are either manufactured by Stryker or outside suppliers and are new, tested and approved for use on Stryker's products.

Stryker employs its own field service team (known as ProCare Services) to service its products and only uses OEM parts for repairs and has exclusive use of certain proprietary tools for diagnostics and repairs. Stryker's Emergency Care products that require the use of such proprietary tools include, but are not limited to:

- Power-LOAD powered fastener system
- Power-PRO XT powered ambulance cot
- Stair-PRO
- LUCAS 3, v3.1 chest compression system
- LIFEPAK 15 monitor/defibrillator
- LIFEPAK 20e defibrillator/monitor
- LIFEPAK 1000 defibrillator
- LIFEPAK CR Plus defibrillator/LIFEPAK CR2 defibrillator

Tooling is calibrated, documented and controlled by Stryker's home offices in Portage, MI, U.S. and Redmond, WA, U.S. Calibration and training records are available upon request.

Stryker's quality team reviews and documents service repairs. We track and trend service to help ensure the highest level of product performance. Preventive maintenance (PM) and service history documentation is available upon request.

Please contact your local Stryker representative with questions.

Stryker or its affiliated entities own, use, or have applied for the following trademarks or service marks: LIFEPAK, LIFEPAK CR, LUCAS, Power-LOAD, Power-PRO, ProCare, Stryker. All other trademarks are trademarks of their respective owners or holders.

The absence of a product, feature, or service name, or logo from this list does not constitute a waiver of Stryker's trademark or other intellectual property rights concerning that name or logo.

LIFEPAK® 15 service

Stryker has been notified by our global parts providers that some components used on certain LIFEPAK 15 monitor/defibrillator models (Part Numbers beginning with V15-2) are no longer available in the market. Service on the LIFEPAK 15 with Part Number beginning with v15-5 or v15-7 is unaffected.

Stryker will continue to offer service support for this subset of the LIFEPAK 15 as follows:

- All service parts with available inventory can be purchased by our end users
- Transactional service (time and material) is available for non-contract customers
 - o If a component has failed on your device, your local Sales Representative should be contacted for support
- Contractual service
 - o Stryker will continue to offer contractual service on a yearly basis only
 - o Preventive maintenance will continue to be done on devices less than eight (8) years old. After this point, we will cease to conduct preventative maintenance and shift to device inspections
 - o If a component fails on your device, please contact your local Sales Representative for support. A pro-rated credit for any pre-paid service will be provided should a unit become non-serviceable due to part availability

It is important to note that the LIFEPAK 15 has an expected life of eight (8) years from the date of manufacture. If you are uncertain of the manufacture date of your products, please contact your local Sales Representative for a full fleet assessment.

We want to ensure the highest quality products and services for our customers. As such, it is important to know that Stryker is the only FDA-approved service provider for our products. We do not contract with third party service providers, nor will we be providing them with any additional parts for these repairs. As such, we cannot guarantee the safety and efficacy of any device that is repaired by a third-party service agency.
