Re: 2024 Yamaha First Responder Golf Carts

---

EMSA currently has four (4) electric golf carts that were purchased 2011. The golf carts are utilized for special events and in instances where patient access may be restricted due to terrain or infrastructure limitations. These golf carts allow for swift and efficient transport of medical personnel and patients ensuring timely medical intervention and patient safety. The current golf carts are outdated and no longer cost effective to repair.

EMSA Purchasing Policy A3 section C, requires that all purchases exceeding \$50,000 must be approved by the EMSA Board of Trustees. EMSA plans to purchase the golf carts as a sole source/non competitive purchase under Section 5, part H of the purchasing policy. The golf carts are custom built with an extended top and more room to accommodate larger patients and provide enough room for personnel to meet patient needs.

As such, EMSA is requesting board approval for the purchase of four (4) electric 2024 Yamaha First Responder Mini Ambulances in the amount of \$109,400.
